

# ROLLER'S *Easy-Press*

German Top Quality

## Universal manual radial press for radial press joints of plastic and composite tubes Ø 10–26 mm.

- For ROLLER'S pressing tongs / pressing rings (except ROLLER'S pressing tongs Mini).
- Robust, compact, universal drive unit with dividable, bolted pipe arms for selectable lever length, therefore optimum force transmission.
- Simple, easy work, due to dividable pipe arms even in confined spaces.
- Perfect pressing is established by complete closing of the pressing tongs. Locking end stop, the pressing tongs stay closed until opening. Perfect visual inspection of proper pressing is therefore possible.

- **Complete range of ROLLER'S pressing tongs / pressing rings** for all common pressfitting systems, see page 100–140.

With precisely worked and exactly rounded, system-specific press contour according to the respective pressfitting system. For perfect system-conformant, reliable pressing.

The pressing tongs / pressing rings are made from tenacious, specially hardened special steel and they are therefore highly resistant. For maximum quality demands and long life.

ROLLER'S pressing tongs / pressing rings fit all ROLLER'S 32 kN radial presses and suitable drive units of other makes with 32 kN thrust.

All pressing tongs marked by a \* have an additional connection for manual driving by the ROLLER'S Easy-Press drive unit.

All pressing rings S (PR-2B) marked with \*\* can also be driven with the manual radial press ROLLER'S Easy-Press using the adapter tong Z8, see page 140.

- Confirmations of suitability see page 52.
- Liability acceptance agreements see page 53.
