German Top Quality

## Compact, proven, universal pipe cleaning machine for pipes Ø 20–150 mm, for spirals Ø 8, 16, 22 mm.

- For fast, effective cleaning of pipes and drains.
- Continuous, undivided drive spindle and clamping jaws outside the housing for complete sealing of the motor compartment against water and dirt.
- Effective, simple, fast working by high speed (740 rpm), especially for effective milling and chain spinning.
- Manual feed for delicate work.
- Strong, centrally arranged pressing lever for central application of force and high strength.
- Guide hose prevents the spiral from whipping and contaminating the environment.
- Easy to transport, only 19 kg. The pressing lever can also be used for carrying.
- Powerful, splash-protected, quiet 1~ condenser motor 230 V, 50 Hz, 750 W, right and left-hand rotation. Connecting cable with integrated personal protection switch (PRCD).
- Holders for coil sections 16 and 22 for fastening the coil sections to the machine frame when changing coils.
- Highly flexible, specially hardened pipe cleaning spirals for easy progress, even in narrow pipe bends. Choice of three types of spirals:
  - Standard pipe cleaning spiral for universal use,
  - Pipe cleaning spiral S for difficult to remove obstructions, e.g. roots, heavy encrustations,
  - Pipe cleaning spiral with core for long-fibre obstructions. Spiral is also easier to clean after use because clogging of the spiral with dirt is prevented.
- The pipe cleaning spirals Ø 16 and 22 mm are driven directly without changing the clamping jaws, pipe cleaning spiral Ø 8 mm is driven with adapter drum 22/8 (accessory).
- Variable spiral length by quick connect spiral sections. No unnecessary turning of long pipe cleaning spirals.
- Wide range of pipe cleaning tools, e.g. drills, dies, chain spinners. The right tool for every application, see page 188–189.
