

German Top Quality

Continuous, undivided drive spindle!

Clamping jaws outside the housing!

Compact, proven, universal pipe cleaning machine for pipes Ø 20–250 mm, for spirals Ø 8, 16, 22, 32 mm.

- For fast, effective cleaning of pipes and drains.
- Continuous, undivided drive spindle and clamping jaws outside the housing for complete sealing of the motor compartment against water and dirt.
- Effective, simple, fast working by high speed (520 rpm), especially for effective milling and chain spinning.
- Manual feed for delicate work.
- Strong, centrally arranged pressing lever for central application of force and high strength.
- Guide hose prevents the spiral from whipping and contaminating the environment.
- Easy to transport, only 24 kg. The pressing lever can also be used for carrying.
- Powerful, splash-protected, quiet 1~ condenser motor 230 V, 50 Hz, 1050 W, right and left-hand rotation. Connecting cable with integrated personal protection switch (PRCD).
- Highly flexible, specially hardened pipe cleaning spirals for easy progress, even in narrow pipe bends. Choice of three types of spirals:
 - Standard pipe cleaning spiral for universal use,
 - Pipe cleaning spiral S for difficult to remove obstructions, roots, heavy encrustations,
 - Pipe cleaning spiral with core for long-fibre obstructions. Spiral is also easier to clean after use because clogging of the spiral with dirt is prevented.
- Pipes spirals Ø 22 and 32 mm driven directly without changing the clamping jaws, pipe cleaning spiral Ø 16 mm driven with clamping jaws 16 (accessory) and pipe cleaning spiral Ø 8 mm driven with adapter drum 32/8 (accessory).
- Variable spiral length by quick connect spiral sections. No unnecessary turning of long pipe cleaning spirals.
- Wide range of pipe cleaning tools, e.g. drills, dies, chain spinners. The right tool for every application, see page 188–189.
