## ROLLER'S Robot 3

German Top Quality

Subframe, mobile (accessory)

## Robust, powerful thread cutting machine for pipe threads (1/16) 1/2-3", 16–63 mm, bolt threads (6) 20–60 mm. Grooving of pipes with ROLLER'S roller groove device DN 25–300, Ø 1–12".

- One tool set ¼-2 and 2½-3" each specially adapted to the respective working area for quick, safe and easy thread cutting, cutting off and deburring.
- Proven clamping chuck and centring chuck. Very large distance between the clamping chuck and the centring chuck for safe, centred clamping of the material, especially long pipes. Clamping sleeves are available for clamping pipes < Ø ½" and bolts < Ø 18 mm.</li>
- Just one universal automatic die head ¼-2 und 2½-3" each, also long threads, instead of a lot of different die heads.
- Die head opens automatically on reaching the standard thread length for conical pipe threads.
- 5 dies 2½−3" for even distribution of the cutting force on the pipe to give a high quality round thread.
- Quick, easy changing of the dies by ball latch in the die head. Not possible to fall out.
- Automatic lubrication cooling for clean thread and longer life of dies, gear and motor.
  Two versions each for workbench, mobile and folding subframe or mobile subframe with shelf (accessory). Lightweight versions Robot 2 L with removable oil and chip tray. Versions Robot 2 with extra large oil and chip tray.
- Stable, maintenance-free gear with high efficiency.
- Choice of 3 proven, powerful motors:
  - 1~ Universal motor 230 V, 50–60 Hz, 1700 W, 53 rpm,
  - Pole-reversible 1~ capacitor motor 230 V, 50 Hz, 2100 W, 2 spindle speeds 20/10 rpm, very quiet running,
  - Pole-reversible 3~ three-phase current motor 400 V, 50 Hz, 2000 W, 2 spindle speeds 20/10 rpm, very quiet running,

Art.-No.

€

Right and left-hand rotation. Safety foot switch with emergency stop.

## ROLLER'S Robot 3 L

Drive unit with clamping chuck, centring chuck,tool shelf. Tool sets  $\frac{1}{2}$ - $\frac{2}{0}$  ( $\frac{2}{2}$ - $\frac{3}{2}$ , consisting respectively of universal automatic die head with dies for right-hand pipe thread ISO 7-1, EN 10226 (DIN 2999, BSPT), pipe cutter, pipe inside deburrer. Automatic lubrication cooling, removable oil and chip tray.

U with universal motor	Equipment 2½–3"	380303 A220	5.625,96
	Equipment ½–3"	380309 A220	6.923,46
K with condenser motor	Equipment 2½–3"	380304 A220	5.926,98
	Equipment ½–3"	380310 A220	7.224,48
D with three-phase current motor	Equipment 2½–3"	380305 A380	6.144,96
	Equipment ½–3"	380311 A380	7.442,46

## ROLLER'S Robot 3

Drive unit with clamping chuck, centring chuck, tool shelf. Tool sets ¼-2" and/or 2½-3", consisting respectively of universal automatic die head with dies for right-handed pipe thread ISO 7-1, EN 10226 (DIN 2999, BSPT), pipe cutter, pipe inside deburrer. Automatic lubrication cooling, extra large oil and chip tray.
