

## ROLLER'S **Fox 22V VE**

German Top Quality

**Powerful, robust, compact hybrid pipe saw for cordless and mains operation. Ideal for steel pipes and other pipes as well as for many materials, e.g. wood, wood with nails, pallets, metal, also stainless steel, cast iron, breeze blocks, plaster boards etc. Li-Ion 22 V Technology! Li-Ion 21.6 V, 9.0 Ah battery for approx. 80 1" steel pipe cuts with guide holder per battery charge\*.**

- For right-angled, fast sawing with ROLLER'S guide holder and extra thick, rigid, unbendable ROLLER'S special saw blade.
- Guide holder with 5-fold force transmitting leverage for 400 % more sawing power for fast, effortless, right-angled sawing. Can be used anywhere on site without a vice. Easy and safe to operate. Ideal for assembly and disassembly.
- Also for free-hand sawing.
- Slim form, small dimensions, comfortable weight, only 3.4 kg. For easy working without fatigue.
- Very robust oscillator drive creates simultaneous sawing and orbital stroke. All-round needle-bearing crank drive (ANC) reduces friction, heating and wear. Therefore long life even under extreme load.
- Gear protected against water and dust by special, high-sliding silicone seal.
- Aggressive orbital stroke for fast, powerful saw feed, excellent chip discharge and long life of saw blades. Fixed setting, precision needle bearing for continuously powerful sawing performance. Specially developed for extreme loads, e.g. for sawing steel pipe.
- Stable, right-angled, solid lifting rod of special steel, precision needle bearing, guide all sides for straight, torsion-free cutting. Especially under extreme load, e.g. when using a force-transmitting guide holder. Drive rod runs in an enclosed housing for safe work.
- Proven, powerful battery motor 21.6 V, 500 W output, with great power reserve. Safety switch.
- Machine status check with overload protection by temperature monitoring of the motor (NTC) with electronic battery charging status check with charging status indicator by a 2-coloured green/red LED.
- Continuously adjustable stroke speed by Vario electronics (0 to 1,900 rpm), for simple sawing start and material-compatible sawing.
- **Li-Ion 22 V technology**  
Highly resistant Li-Ion 21.6 V batteries with 5.0 Ah capacity, for long life. Light and powerful. For approx. 80 1" steel pipe cuts with guide holder or approx. 140 1" steel pipe cuts free hand per battery charge\*. Graduated charging status indicator by coloured LEDs. Operating temperature range – 10 to + 60 °C. No memory effect for maximum battery power. 100–240 V, 50–60 Hz, 90 W rapid charger. 100–240 V, 50–60 Hz, 290 W rapid charger, for shorter charging times (accessories).
- **For cordless or mains operation**  
Supply voltage 220–240 V/21.6 V, 50–60 Hz, 40 A (output), for mains operation in place of Li-Ion 21.6 V battery (accessory).
- Practical, ergonomically designed spade handle with soft grip.
- Powerful saw feed due to ergonomically designed housing handle and non-slip, heat-insulated, soft grip protective sheath.
- Swivel support shoe for safe guiding of the saw on the material to be sawn.
- Universal saw blade holder. All saw blades – with one-sided and two-sided hinge, can be clamped without changing or without moving the saw blade pressure piece.
- Spiral clamping pin integrated into the pressure piece – easy changeable.
- ROLLER'S special saw blades 2" / 4" / 6" (page 34) – absolutely essential for right-angled sawing with guide holder. With double tang, extra thick, rigid and bendable.
- ROLLER'S special saw blades 150 / 200 / 300 (page 34) – for all sawing work instead of many different saw blades. With double tang for free-hand sawing and sawing with guide holder.
- Wide range of ROLLER'S saw blades for free-hand sawing. The right saw blade for every application, see page 35.
